An update from the Vineyards

Finally let's give you a look into our vineyards and the cellar at this time of year - our harvest time. February is the most exciting month for the vintners and cellar masters of the Cape. We started harvesting our first grapes on 30 January - a rather late date and a promising sign as it was caused by a long, cold, rainy winter and a long, cool and wet Spring.

As a result, our vines have enjoyed an extended hibernation period and the rains have raised the water levels of the soil to a good level, giving moisture to the roots during the dry summer months ahead. Due to these positive seasonal factors we expect exceptional quality for the 2013 vintage at Haute Cabrière.

We trust that during February, the month of love, and beyond you will be enticed to visit us and enjoy our summer events, our elegant Haute Cabrière wines and Pierre Jourdan MCC, as well as the fine food and spectacular setting of Haute Cabrière.

Cheers and see you soon!
