HARVEST 2015

We are very excited about the 2015 harvest. We crushed just over 220 tons of grapes for our cellar this year. Our grapes were early but winemaker, Schalk Opperman is very impressed with the quality of the grapes. As all our vineyards are dryland our yields are smaller but this adds to extra quality in the bottle. This year we had two French Interns assisting in the Cellar Julien Fernandez and Doriane Visse. We would like to thank them for all their hard work and they will truly be missed. We will keep you updated on the 2015 vintages...

To all our Lammershoek Vineyard and Cellar team members you did a great job, we salute you!

Happy Easter Holidays from our family to yours
