De Krans Wine Cellar is situated along the upper reaches of the picturesque Gamka River Valley near Calitzdorp. The history of the farm dates back to 1890 when the current owners' great grandfather bought part of the first farm established in Calitzdorp, named Buffelsvallei ("Buffalo valley") on the edge of the municipal boundary of Calitzdorp.

The first grapes were planted in 1936 mainly for the production of raisins and some sweet wine. In 1964 the present cellar was built and De Krans quickly became well-known for quality ports and Muscat sweet wines, as well as dry table wines.

The current owners and winemaker now take advantage of the unique Calitzdorp terroir to produce great quality Cape ports and table wines from a whole range of interesting grape varieties.

This flagship wine is a tribute to the beautiful Tritonia, with its colorful flowers, of which eight different species occur in the Klein Karoo, the most complex and species rich arid area in the world.

in the vineyard : Portuguese varieties were planted in Calitzdorp during the late 1970's with Tinta Barocca being the first to find its way to the Klein Karoo. Calitzdorp's continental climate, which is very similar to the Douro valley in Portugal, is ideal for growing quality Touriga Nacional, Tinta Barocca and Tinta Roriz grapes. The shallow clay soils in dry warm summers ensure perfect growing conditions for these unique varieties. All vines are micro irrigated on Perold trellising systems to ensure the best quality fruit possible.

about the harvest: Selected grapes are handpicked at 24.5°B.

in the cellar : Touriga Nacional, Tinta Roriz and Tinta Barocca grapes are vinified separately in open fermenters until fermentation has stopped. Skins are then pressed and the wine is left to undergo Malo-lactic in concrete tanks. After MLF the wines are put separately into 2nd and 3rd fill French Oak barrels and left to mature for 12 months. After ageing the blend is made from best selected barrels and then bottled.
